Facts & Fancies

I see by the minutes of the last meeting of the Village Council that the men we have elected to sit at the Council Board are, according to their own declaration, unfit to do the business and are forced to ask the people by way of referendum.

No must are these men to do the business that they were elected to do that they have to run to the electors like a lot of little boys to ask whether they can spend a hundred dollars to pay the Reeve for his extra work or whether they can grant a license for a billiard parlor when there is a by-law on the books for that very purpose and when a billiard parlor has been running in this town for upwards of forty years.

I certainly thought that "Car" William and "Economy Prince" Charley and Mr. Amos Roger de Coverly Fisher had enough gumption to spend a hundred dollars in December when they were so lavish in throwing away a thousand dollars in January. But I see I was mistaken in the caliber of the men—of course it is closer to election day now and they must be more careful.

I also thought that if Mr. William's conscience was bothering him about a pool room license in this town that he would have been man enough to have moved to have the license cancelled instead of allowing it to be renewed last April—but I see that I was wrong again—Mr. William's conscience was perfectly normal on pool room license in April but got very raw on this point in December, when he saw a chance to "bribe" a few old arguments by a referendum and get away with "Mark" for an old grudge at the same time.

How he got "Economy Prince" Charley's conscience working and how he got Mr. Amos Roger de Coverly Fisher to go along with him, I am sure, has been a license under himself in the town and the town must have used some pretty strong tools to get Charley's conscience working on the license question.

I also wonder what kind of dope the Car handed to his fellow Councillor Mr. Amos Roger de Coverly Fisher to get him going on the pool room question as I have known Mr. Fisher for over thirty years and I never yet saw him carrying the flag in the front of the moral reform army nor passing the grudge at a Sunday School Convention.

If these three men think that the people of Grimsby are blind fools they have missed their guess.

The people of Grimsby have no more right to be called upon to vote on the matter of a pool room license than they have to be called upon to vote on the matter of a restaurant, a moving picture show, a cigar store or a blacksmith shop.

The Ontario Government gives to Municipal Councils the power to pass by-laws to grant licenses to pool rooms, restaurants, cigar stores, etc. Our Council has passed laws by-law and have granted licenses under them—therefore there is no question to go to the people—only a fool question that these men thought might catch them a few votes.

If "Car" William and "Economy Prince" Charley wanted to kill the pool room license in order to get even with Mark St. John why did they renew the license last April—or if they did not think of the matter in time why did they not rescind the by-law under which the license was granted—why didn't they? Why? and who answers why?

I'll tell you why—they were afraid of the cars!—They were afraid of the complications of the law—they were afraid of the possibility of damages for running a man's business as they side-stepped and tried to throw it on the people—being unfit to do the business they were elected to do, they side-step and cry, "Here mamma" you do it for me.

But there was another reason besides fear and that was an idea that evolved in the minds of the ingenuities that by injuring Mark St. John they could help themselves

back into the Council or in other words they decided to "bribe" the voters with the "sup" that they would kill the pool room license.

Asquith bribed the Irish members with the promise that he would give them Home Rule—where is Asquith now?—There is only one rule, for Municipal politics or any other politics and that is, "Run straight and play fair."

There is still another reason and that is the foundation reason and that reason is "greed"—Mitchell's undying never-ceasing "greed" against Mark St. John—and Mitchell has pulled the other two into it.

We find therefore in our midst the sorry spectacle of three men using the Council Chamber and abusing their position as Councilors to "get even" up to work on an "old grudge" on a fellow citizen simply because that citizen and Mitchell are enemies of long standing.

In taking the stand before Mitchell has stultified himself before the people. He has always stood against "class legislation" and yet he steps to the front now as an exponent of class legislation.

In reality he says the business men and the wealthy men who belong to the Grimsby Club can play pool and billiard all they like and pay for it. He also says that the G. W. V. A. boys in their club rooms can play all the pool they like and pay for it, but other people cannot play pool—the public cannot play unless they join the club or form a new one, class legislation.

Now as a matter of fact, pool has been played in this town for the past half century and will be played for the next half century and for all the other half centuries following, and neither Mitchell, Mabley or Fisher can stop it.

Wherever the Anglo-Saxon race is found there is found billiards, and pool tables and no finer form of amusement exists. There is no better exercise and amusement for the business man and there is none more harmless—and there is no better way of conducting a pool room than under a license which brings it immediately under municipal control.

But there is another side to the question and that is this—The putting of the matter before the people is a fool proposition because it will not be binding on the Council. The new Council does not have to rescind the present by-law and can go on issuing the license as usual—not only that but it is just possible that the Council cannot cancel the license without just cause, as the law does not contemplate that a man can be ruined (who has invested large amounts of money in pool tables on the strength of a license) just through the whim or spite of some Councilor who is in the Council one year and out of it the next. The pool license originates in the Legislature and in all probability its cancellation rests there also except for just cause.

Some people on the street are saying that a "returned soldier" should have the license but if the "pool proposition" carries there will be (according to Mitchell) no pool license for returned soldiers or anybody else, so that, trying to get votes for the "pool proposition" on the "returned soldier" plan is all foolishness.

While speaking of returned soldiers, I might mention that Mr. St. John has stated in public that he intends to turn his billiard and pool business over to his son Edward, who is now on his way home from the front, badly crippled after four years service.

At the nomination meeting on Monday night Mr. St. John asked the Reeve if any complaints had been made by him with regard to the way the pool room was conducted. The Reeve replied that no complaint had been made to him. Mr. St. John then asked Councilor Thel the same question and the reply was the same.

In speaking on the question Mr. Mitchell admitted that he and Mr. St. John had been "enemies of years"—that's what is at the bottom of the whole affair. Mitchell

said he did not want to cancel the license himself by a motion in the Council so he decided to leave it to the people.

Nice way to run public affairs!—Mitchell wants to kill a man's business. He hasn't courage to do it himself so he asks the people to do it for him.

So it was with the grant to the Reeve! Mitchell wanted to injure the Reeve by making it appear that he wanted a grant of \$100.00. But Mitchell was afraid to pass the motion rescinding the grant, so he threw it on to the people's shoulders.

The Reeve told Mitchell and his lackeys that he did not want the hundred dollars. He pleaded with them to drop the matter, but they refused. They were bound to make a question out of it.

They stated that they had received quite a few votes at the last election on the promise that they would not make the grant.

The Reeve replied that if that was so, they should drop the matter and not make the grant. This action would fulfil their promise to the electors. Mitchell refused to let it go at that. He was determined to put to question to the people in the form of a referendum, in order to injure the Reeve by making it appear that he was bound to give the \$100.00. These facts were bound to make it appear before all our citizens and before the whole country that Reeve Parrell wanted that hundred dollars and to save it, they had to appeal to the people. They turned a deaf ear to the Reeve's argument to drop the matter and keep the money.

It is now up to the people of Grimsby to rescind this stupid motion to a Mr. Reeve. Let all those who believe in the honor and integrity of Reeve Parrell go to the polls and vote against the three men who have sought to humiliate him and bring his name into disrepute.

Had these men wished to be fair and decent to the head of the Council there was two honourable courses open to them—First, they could have dropped the matter and made no grant—second, if they wished to put themselves on record as against the grant they could have passed a motion to rescind to make the grant. Then the supporters of these men would have been satisfied and their opponents would have had no kick.

As a matter of fact the citizens cared nothing about the matter. Had the matter been dropped at the Reeve's request no one would have bothered about it. Had the grant been made, few if any, would have bothered about it. But none of these courses suited Mitchell and Co. They wanted a "question" made of the trifling matter. A question that they imagined would bring them votes, and at the same time place the Reeve in a humiliating position. It is to be hoped that their action will be a boomerang, bringing upon their own heads the injury they endeavor to do to the Reeve Parrell.

DEATH OF NORMAN R. SUTHERLAND

It is our painful duty to again chronicle the death of another of the prominent citizens of this district. It is the person of Mr. Norman R. Sutherland, who passed away at his home on Robinson St., South on Friday, Dec. 27th, after a brief illness.

The deceased gentleman was a enjoying his usual health up to within eight days of his death, when he was seized with a severe attack of the influenza and in spite of the very best treatment he grew worse until he passed away.

Norman Robert Sutherland was born in 1860 in the Village of Russell in the County of Russell, Ontario. At the age of fourteen years he went to Bay City, Mich., where he spent five years. He then returned to Russell, Ont., and spent three years engaged in farming. He then moved to the city of Ottawa and engaged in the horse business which avocation he had followed more or less up to the time of his death. For many years he put on big attractions at the large exhibitions in the form of a Hippodrome and Roman Chariot races. He had engagements at the Canadian National Exhibition, Toronto; the Central Canada Exhibition, Ottawa; the great Eastern Exhibition, Brockville, Que.; the Hamilton Big Fair, Brockville, Ont.; and the Fair at

St. Catharines, N. Y., and at other big exhibitions.

In 1904 he had his complete outfit of horses and chariots destroyed by fire at Ottawa. The same year he came to GRIMSBY and engaged in horse farming, purchasing the farm known as "Lakeside" on the river road just above GRIMSBY. Later he sold this farm and bought a larger one and having sold this one, moved to Robinson St., South, GRIMSBY, where he has resided for the past number of years. He had also a large stock farm at Burlington.

He deceased was a member of the North GRIMSBY Council for several years. He was a Liberal in politics and an Anglican in religion. His wife, who was Miss Emma L. Grosvenor of Newington, Ont., survived him a well as two sons and two daughters, all at home. He is also survived by two brothers, Cyrus of North GRIMSBY and George of Russell, Ont., and two sisters, Mrs. Charles Reed of North GRIMSBY and Mrs. Katharine Hamilton of Grimsby, Mich.

The funeral which was largely attended took place on Sunday afternoon, Dec. 29th at Queen's Lawn cemetery. The Rev. J. Allan Ballard conducted the services at the house and graveside. The Masonic funeral home conducted service at the graveside.

ABLE SCREEN VILLAIN

There are two screen villains with greater ability to make the audience believe their guilty deeds than Robert McKim who plays the heavy role in "The Chase of the Dan." Charles Ray's new Paramount picture, produced by Thomas H. Ince, which will be shown at Moore's Theatre next Saturday, Mr. McKim is a bad man from top to toe in the picture. Of screen he is one of the best of gentlemen.

CHRISTMAS TREE FOR SOLDIERS' CHILDREN A HUGE SUCCESS

The Christmas Tree and Entertainment given by the local G. W. V. A. to the children of soldiers around GRIMSBY and district, will certainly not be soon forgotten by the children who participated in the delight on Thursday evening last. About thirty children and parents sat down to supper at 6.30 and all had a good time.

The ladies of St. Andrew's Guild had volunteered to look after the Christmas decorations, etc., and in the manner in which every little detail was carried out. The Tree Committee took this privilege of changing the tables of the Oak Grove the front of the Oak Grove and the front of the Oak Grove.

Oranges were supplied by Hoshal & Burgess, by Mr. St. John and Mrs. Moore of Moore's Theatre, and home for sandwiches by Mr. (Caretaker, Hotel).

Order to sickness all of the children were not able to be present, but their parents are being served for them by Comrade Charlton, St. John's Barber Shop. Many of these children are kindly asked to call for same.

REAL VALUE

is based, not on the price paid for a commodity, but on the benefit derived. That is why Zam-Buk is the most potent skin healer on the market—because the benefit derived is 50% greater than can be got from ordinary ointments. This is due to the fact that Zam-Buk is all medicine—100%. Ordinary ointments are 5% medicine and the balance animal fat.

The superiority of Zam-Buk is proved by the many cases of chronic skin trouble and old sores which yield to the power of Zam-Buk after all other treatments have failed. The unusual power of penetration which Zam-Buk possesses enables it to reach the underlying tissues, where skin troubles have their "root." The germicidal properties in Zam-Buk destroy all germs. Until this is done healing can never be thorough. The reason why sores that have been treated with ordinary ointments break out again is because the remedy has never got to the seat of the trouble but has only healed over the outer skin. Zam-Buk, on the contrary, penetrates skin disease, and the cure is complete and permanent.

Zam-Buk should always be used for eczema, ringworm, scalp sores, pimples, abscesses, ulcers, blackening, bad leg, piles, cuts, burns and so on. All dealers or Zam-Buk Co., Toronto, Inc. Box 2 for \$1.25.

DEATH OF THOMAS JUPP

His funeral took place on Tuesday afternoon at Queen's Lawn cemetery and was private. Rev. J. S. Ballard conducted the service. The deceased is survived by his widow, two children and a sister.

PRECAUTIONS AGAINST THE FLU

(By Courtesy of Miss Viola Hurd.)

For breaking up Spanish influenza in the beginning. This has been quite successful in the recent epidemic, and is best taken at night:

1. Take ½ grain calomel every 15 minutes until 2 grains are taken.
2. A hot tub bath and get into bed quickly, between hot blankets, and drink 2 glasses of hot lemonade, so as to perspire.
3. In the morning take a big dose of Epsom salts with plenty of water, and during the day drink plenty of water and lemonade. Have plenty of fresh air but avoid catching cold.

"The Trap," a surprising and very interesting and entertaining picture, charming Alice Brady will be seen on Monday, January 6th at Moore's Theatre. This production is a World-Picture and it has some of the most beautiful, unusual and glowing scenes ever seen in pictures. You will like "The Trap" and you will make it a habit.

Keep Your Paper FOR THE RED CROSS

The GRIMSBY Women's Institute are still anxious to get paper to be sold for the benefit of their Red Cross work. All parties who have old papers or magazines or old rubbers should keep them for this purpose. Fold your paper about a foot square and stack them one on top of the other until you have a bundle about a foot deep, then tie it up with good strong string, one that will not break easily. Keep your magazines separately and tie them up in bundles with strong cord. When you have a sufficient number bring them to the paper building on the east side of the independent block GRIMSBY.

Those who cannot deliver the paper themselves to the building, should notify the Independent Office and an automobile will call for the paper.

Periodical collections will be made in the Village, but the parties, who make collections, are busy men and all papers should be tied up in bundles, so that they can be put into an automobile quickly, so as to save time. Parties in the township, who have no way of delivering the paper themselves, should make arrangements with some neighbor to bring them to the paper house on his day or in his automobile.

The Salvation Army from Hamilton has been gathering papers in GRIMSBY and district, but as this organization has no tabernacle in GRIMSBY, the GRIMSBY people should keep their paper for that local Red Cross benefit. If a thousand families save all the paper, will soon make a car load.

Do not roll the paper into small rolls as they have to be unrolled before they go in the bales and this work costs almost as much as the paper is worth.

If these instructions are followed some money out of waste paper.

THE EAST COAST.

It has been close to the "front" in the war.

The East Coast, and by the East Coast is meant the east coast of Scotland, is very much at the front. Exactly in what way is known only as the war news of a thousand years ago was known, by word passed from mouth to mouth. The East Coast, like the Grand Fleet, the average man of the island town hears little of the watch it is keeping, or the way it has changed itself, and, indeed, transformed itself. He hears of it when it suddenly emerges into action to assist a beleaguered ally, or when it is suddenly called upon to return to its old duties after a long absence.

And yet the East Coast is really but little changed, and those who knew and loved it well in the days of peace, all the way from the Duane to Holy Isle, would find along its coast stretches all, or nearly all, the sights and sounds of former days. They might not find it so true, the inevitable trait of people or land, or the horizon where they were, but for the rest, it would have for them all that strange vivid familiarity that only the sea-coast can have. There would be the chain of hills of Knap-

All white and green,
And the small blue—

the low dunes of Galloway, stretching on to the dunes and bracken, the golden sands and scarlet poppies of Norfolk. Then would come the great stretch of the Wash, old Mary's Lynn, and, rising the hills, the lantern of Beaton church, visible high above the flat land of southern Lincolnshire. Then one would cross the mouth of the Humber to share the shivering cliffs of Withernsea, the way to the mighty limestone crags of Flamborough Head. Here the East Coast is at its mightiest. Headland after headland pushes its way out into the North Sea.

And Flamborough calls to Flamborough, and the Humber to the Humber.

And so one would go on up the coast, past the distant shingle dunes of Middlesbrough, and Newcastle, out into the open stretches of Holy Isle and Lundy, to the border town of Dorchester-on-Thames.

Of course, if the traveller took a close view he would find changes enough. The fishermen of Flamborough and Bridlington, of Whitby and Scarborough, are sailing, many of them, and they have thought of sailing, and making money, they never thought of making. Those who, on sandy, much-remembered—some say, have had a change with this one, or that one, will remember that strange impression of "sublime untravelled content" with which such interchange of views always filled one. And so it is with a feeling of wide expansion that one reads, for instance, of how the "two brothers" that had "an equal share in the war"

continued, preserved in the East Coast, and whole volumes in the East Coast, at Scarborough or Whitby, or in the waters on the other side of the North Sea.

So much for changes, but the modern still darts and dives amidst the dunes of Norfolk, and the puffin builds his nest in the crags and cliffs of Flamborough. The great green still crowns the high dunes, or marches down gently to the sea in a thousand sheltered coves and bays.

Her Costume.

Among a crowd of people who were waiting for the assembly and less flow of carriage, came, and turned to see, so that they could crowd to the other side of the street, was a woman dressed in a dress that resembled nothing so much as a check-board. The squares, red and black, were in size with any worn by miniature in the palatial days of black-face minstrelsy. Naturally she was the centre of attraction. She thought she saw a chance to gain the other side and started on her journey just as a jolly looking chauffeur started his motor car.

The woman hastily retreated to the curbstone, but, with an appreciative glance at her dress, the driver of the motor car brought it to a standstill and shouted out smilingly, much to the amusement of the interested bystanders:

"Go on; it's your move!"

That Song.

A soldier's letter says that when his regiment disembarked at a port in France the men were cheerfully welcomed by a crowd of small children who sang a song the first line of which ran something like this: "Hello, so good-bye." The words sounded like gibberish to the Americans, but the tune seemed strangely familiar, and presently it dawned on the newcomers that the children were singing, or trying to sing, in English. "Hello, hello!" the gang's all here!" These soldiers' predecessors from Canada had evidently thought it would be nice for the incoming soldiers to hear something familiar, and so had taught the French children a song that was somewhat humorous as a song.

A Big Sport.

Judge—The year for burglary is a house. Have you anything to say for yourself?

Gas-bling—Sure, you shake the dice I see whether we make it twenty jars or nothing.

How to an Ace.

As high, and \$55 per acre has been paid for the past few days for land in the vicinity of Hamilton, and within the two lines, in Hamilton.

A General's Confession.

Dominion of Austria.

Awakened by Great War.

Prepare for the Future

Nowhere in the world was there quicker understanding of this war's significance than in Australia. It is because the services formerly rendered to Australia by the Mother Country have been withdrawn, because manpower has been reduced, because her lack of facilities has prevented her from supplying out of her great store the things which her Allies so urgently need, and because her satisfaction with things as they were has given way to a realization of things as they are going to be, that the astonishingly co-operative mind of Australia has bent to the task of preparation for the future.

The war has shown how useless resources of wealth are, either for service or profit, unless facilities exist for making them available when and where they are wanted. With enormous surpluses of wheat, wool, sugar, beef and fruit, Australia has been forced to erect storage houses and to risk millions in losses because of lack of transportation. For the importation of much-needed manufactured articles she has had to rely in a great extent upon the uncertain visits of sailing vessels. Coal and metals have remained comparatively undeveloped because of insufficient railways, canals and maritime vessels.

It is to make sure that this shall not happen again and that in the future the commonwealth will not have to rely on British ships that a great shipbuilding program has been inaugurated. Hundreds of small vessels only have been built, and for the larger work the necessity of a suitable industrial organization has been recognized. Necessary materials, for shipbuilding are at hand. There are large deposits of iron ore. Coal and timber are readily available for the construction of ships. The cost of steel is low, and the process is of good quality. Indeed, it is now so that the materials for turning out ships are so abundant at Newcastle, New South Wales, that they can be assembled here in the United States.

Shipbuilding projects are also in many places and the commonwealth government, which has already taken over the Victoria state yards, is prepared to augment them financially. Yards for building ocean-going vessels are being ready at Melbourne, Newcastle, Walsh Island, New South Wales, and in the Pacific, in Queensland and in the South Sea Islands. The Victoria state yards are the largest shipyard in the world.

What Chance Have I?

This is always the question of the
man who has failed to develop his
abilities.
Hundreds of important, lucrative
positions are going begging because
"there are no men trained now and
wishes to fill them."
That's why in the fall of a year
past, a young man, studying here
at the Canada Business College, was
called by his employer to fill a
vacancy.
